Pastors Column: In July 1963, six year old Michael Flanigan was diagnosed with Ewing's Sarcoma, a form of bone cancer; at that time, it was usually fatal. The cancer had spread from his leg to his jaw and lungs. Michael's parents took him to the Bishop Newman Shrine in Philadelphia. After several visits, he began to make a dramatic recovery. In October, no cancer was found in his jaw or lungs and by Christmas, there was no trace of Ewing's Sarcoma remaining.

In December 1975, after an examination of the medical records, the Medical Board of the Vatican Congregation for the Causes of Saints declared that Michael's cure was "scientifically and medically unexplainable". This miracle was attributed to the intercession of Bishop Neumann and was the final miracle needed for his canonization.

Don't Get Scammed! Scammers are now posing as priests and other clergy. In this latest scam, you might receive an email or a text message that appears to be from your Pastor or another priest that you may know. It is important not to click on any link provided.

Any e-mails from Fr. Howard will be sent from:

frjhoward@hbgdiocese.org.

Here's how to protect yourself from being scammed:

1 – Know that scammers are out there. Be suspicious of any request for funds of any type via an email message or a text

message. Verify any request with a call to the person who supposedly sent it or a call to the phone number of the text that you received.

2 – Know that any email from a priest should be from a diocesan or parish email account. Messages sent from free services, such as Gmail or Yahoo, are more likely to be scammers.

3 – Many clergy do not share their cell phone numbers publicly. If you receive a text message from someone not on your phone's contact list, be suspicious.

4 – Know that priests will NEVER ask for financial transactions via email or text messages.
