

## Guidelines When Using our St. Christopher Church Playground Equipment

Our new playground equipment has been built, blessed, and it's ready for play! When accessing the playground, please make sure you and your children use the door located within the nave beside the Altar area. This door does not have an exterior door knob however, so please make sure the door is propped open. We hope to have a new door soon that will have a door knob on the exterior side.

For the safety of and the maximum fun for all children, adult supervision is required when the playground is used. If you are not able to supervise your children, but they want to play, and another adult is outside, please check with that adult and ask for their assistance. For many safety reasons, it is also important that the children stay inside the playground area or inside our church building. The back area is not ours for them to run and play in, only the playground area. Since the playground is not open during church services and religious education classes, please use the Nursery area as needed during these times.

We want all the children to enjoy this fun addition to our church, but please help them to understand the guidelines outlined above. We are grateful to our donors and those who installed this equipment. We hope our youth enjoy this gift!
